

## Safety and crime

### Crime free neighbourhoods

The Alternation LLC SafeGrowth® & CPTED certification comprises two intensive workshops that bookend field projects by SafeGrowth teams on real-life problems.

Topics include 1<sup>st</sup> and 2<sup>nd</sup> Generation CPTED, team management, emotional intelligence for leveraging change, crime analysis, and creating an annual SafeGrowth Plan, and prep for the ICCP CPTED certification exam.

## SAFEGROWTH®

Safety planning in the 21<sup>st</sup> Century neighbourhood

Resilient, safe, sustainable

Crime is complex and solving it isn't a simple matter. Comprehensive solutions must do more than hack at the branches. They must dig at the roots.

One solution is 1<sup>st</sup> Generation CPTED (crime prevention through environmental design). It cuts crime opportunities by modifying the physical environment with planning and architecture .

Another is 2<sup>nd</sup> Generation CPTED that adds social neighborhood-building strategies to sustain prevention efforts.

SafeGrowth® is the comprehensive and collaborative planning method that

puts all the pieces together into one coherent picture for safe neighborhoods

## SafeGrowth®

We can do better to create safer places in the 21<sup>st</sup> Century

# 21<sup>st</sup> Century safety strategies

International speaker, urban planner/criminologist, and former police officer, Greg Saville, will lead participants through a three-part interactive SafeGrowth® and CPTED certification workshop. Created by Alternation's Greg Saville, the SafeGrowth® model incorporates community building, sustainability and neighborhood safety into planning and urban design practice.

*The public peace of cities is ...kept primarily by an intricate network of voluntary controls and standards among people themselves - Jane Jacobs*

## WHO SHOULD ATTEND

This workshop is designed for anyone engaged in urban development and crime prevention including: neighborhood groups and organizations, city planners, architects, landscape architects, police officers, parks planners, maintenance and facilities managers, project managers, school staff, security officers, campus managers, community association leaders.

## WHAT YOU OBTAIN

Tactical training in prevention tactics such as 1<sup>st</sup>/2<sup>nd</sup> Generation CPTED, crime pattern analysis, asset mapping, safety audits, and SafeGrowth Plans.

Professional development skills training for urban designers.

Preparation for professional CPTED certification with the International CPTED Association (ICA).
