

Safety and crime

Crime free neighbourhoods

The Alternation LLC SafeGrowth® training comprises two intensive 2-day workshops that bookend field projects by SafeGrowth teams on real-life problems.

Topics include 1st and 2nd Generation CPTED, team management, emotional intelligence for leveraging change, crime analysis, and creating an annual SafeGrowth Plan.

SAFEGROWTH®

Safety planning in the 21st Century neighbourhood

Resilient, safe, sustainable

Crime is complex and solving it isn't a simple matter. Comprehensive solutions must do more than hack at the branches. They must dig at the roots.

One solution is 1st Generation CPTED (crime prevention through environmental design). It cuts crime opportunities by modifying the physical environment with planning and architecture .

Another is 2nd Generation CPTED that adds neighbourhood-building strategies to sustain prevention efforts.

SafeGrowth® digs at the roots of crime by transferring solutions like these to local groups so they can co-create plans with police and the city.

SafeGrowth®

We can do better to create safer places in the 21st Century

21st Century safety strategies

International speaker, urban planner/criminologist, and former police officer, Greg Saville, will lead participants through a three-part interactive SafeGrowth® and CPTED certification workshop. Created by Alternation's Greg Saville, the SafeGrowth® model incorporates community building, sustainability and neighborhood safety into planning and urban design practice.

The public peace of cities is ...kept primarily by an intricate network of voluntary controls and standards among people themselves - Jane Jacobs

WHO SHOULD ATTEND

This workshop is designed for anyone engaged in urban development and crime prevention including: neighborhood groups and organizations, city planners, architects, landscape architects, police officers, parks planners, maintenance and facilities managers, project managers, school staff, security officers, campus managers, community association leaders.

WHAT YOU OBTAIN

Tactical training in prevention tactics such as 1st/2nd Generation CPTED, crime pattern analysis, asset mapping, safety audits, and SafeGrowth Plans.

Professional development skills training for urban designers.

Preparation for professional CPTED certification with the International CPTED Association (ICA).
